

**PROJECT**  
CREATION OF PERSONALIZED  
PDFs FROM DATA

# LOGIN PAGE

A login page UI mockup featuring a white card centered on a background image of a snow-capped mountain peak under a clear blue sky. The card has a light gray header with the text 'Sign into your account'. Below the header are two white input fields with thin gray borders, labeled 'Email address' and 'Password'. At the bottom of the card is a solid blue button with the text 'Login' in white.

Sign into your account

SELECT

Select Folder

SELECT

GENERATOR PDF

The PDF created with the WYSIWYG Trumbowyg editor (Content page), we will create a personalized PDF for each person of a data.

Select DATA = When we click on the button, we display a popup to choose a data

Select Folder = When we click on the button, we display a popup for to choose the location where the PDF files will be exported

Once Data and the folder have been chosen, the "GENERATOR PDF" button turns green.

# When click on the "select" button of "Select DATA"

	Disney+-Logo.wine.png	226 B	2020-11-10, 10:23 AM	 

I want an interface like this (or equivalent) to host the images.

Must have

- possibility to create / delete / rename a folder
- possibility to create / delete / rename an image
- possibility to search for an image with a search engine

# ADMIN USER PAGE

LOGO

JOHN DEE

HOME PAGE | CREAT PROJET | PICTURES | ALL PDF | DATA

if John Dee is admin = if I click here, I display the account settings.

Account   Users			
Activated users (7) Deactivated users (0) Partners (0)			
<a href="#">+ Add new users</a>			
<input type="checkbox"/>	Name	Access	Last Log in
<input type="checkbox"/>	 <b>Amos oiny Benninga</b> (amos@grabcad.com)	<a href="#">1 project</a> , 0 partner spaces	30 Jun 2016 at 08:58 AM
<input type="checkbox"/>	 <b>Danny Boyd</b> (danny@grabcad.com)	Admin <a href="#">7 projects</a> , <a href="#">4 partner spaces</a>	09 Aug 2016 at 06:36 PM
<input type="checkbox"/>	 <b>Luis Barragán</b> (luis@grabcad.com)	0 projects, 0 partner spaces	06 Aug 2016 at 03:37 AM

Admin has all roles = create an account, define the role of each user, deactivate a user etc ...

Create a new user = we display a popup (or a page) to create a new user. User receives an email to confirm his account and choose his password.

# REMINDER

If you have any recommendations, I am interested.

All pages are to give you creative examples. You can modify change respecting the functionality.

If I accept your proposal, you must install everything on my site.

You go to access

- my OVH account (hebergement website)
- phpmyadmin
- ssh
- ftp

The project must be carried out on my site

FRAMEWORK: Bootstrap, Bulma.

WYSIWYG = Trumbowyg

CMS = you decide

Payment = In 3 steps

- 1 - demonstration (30%),
- 2 - returns (if 20% is needed)
- 3 - sources (50%).

When each task is finished, I release the payment.

Deadline:

Demonstration = before 1st December 2020

Return (if necessary) = 2 days

The project must end before 5-December-2020
